

Cadet® Touchless Toilets

No-touch flush — for a cleaner, safer bathroom

We've combined reliable touchless technology with the legendary Cadet flushing system to create a toilet that offers a cleaner, more hygienic bathroom experience. A slow wave of the hand within 1-1/2 inches of the sensor will activate the powerful Cadet flush. Long preferred for its power alone, Cadet is now poised to become the germ-fighting favorite.

No-Touch Flush for Home and Business

Cadet Touchless Toilets are chair height, elongated styles designed for comfort and ease of use. Available with smooth, skirted sides to conceal trapway for easy cleaning, or with exposed trapway less seat, both feature our exclusive EverClean® surface to inhibit the growth of bacteria, and use 1.28 gpf volume to conserve water without sacrificing performance.

2-1/2 inch diameter sensor module can be installed on wall within 3 feet of toilet or on top of toilet tank with supplied screws or backing tape.

When installed with recommended seats listed below, top of seat is 17" to 19" (432 to 483 mm) from the finished floor.

TOUCHLESS FLUSH — Wave hand slowly within 1-1/2 inches of sensor face for approximately two seconds to trigger a powerful flush

MANUAL FLUSH — Push and hold the left side actuator button for approximately two seconds ensuring continual operation in the event batteries need replacing

BATTERIES INCLUDED — One-year battery life powered by 3 AAA sensor and 4 AA control module batteries, based on an average of 12 flushes per day

Includes signage to educate users how to activate the no-touch flush technology.
